(LIBOR One-Year Index (As Published In The Wall Street Journal) - Rate Caps)

THIS FIXED/ADJUSTABLE RATE RIDER is made this 5TH JANUARY, 2007 , and is incorporated into and shall be deemed to amend and supplement the Mortgage, Deed of Trust, or Security Deed (the "Security Instrument") of the same date given by the undersigned ("Borrower") to secure Borrower's Fixed/Adjustable Rate Note (the "Note") to WASHINGTON MUTUAL BANK, FA

("Lender") of the same date and covering the property described in the Security instrument and located at:

> 20908 48TH AVE W LYNNWOOD, WA 98036

(Property Address)

THE NOTE PROVIDES FOR A CHANGE IN BORROWER'S FIXED INTEREST RATE TO AN ADJUSTABLE INTEREST RATE. THE NOTE LIMITS THE AMOUNT BORROWER'S ADJUSTABLE INTEREST RATE CAN CHANGE AT ANY ONE TIME AND THE MAXIMUM RATE BORROWER MUST PAY.

ADDITIONAL COVENANTS. In addition to the covenants and agreements made in the Security Instrument, Borrower and Lender further covenant and agree as follows:

A. ADJUSTABLE RATE AND MONTHLY PAYMENT CHANGES

The Note provides for an initial fixed interest rate of 6,000 Note also provides for a change in the initial fixed rate to an adjustable interest rate, as follows:

4. ADJUSTABLE INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The initial fixed interest rate I will pay will change to an adjustable interest rate on the first day of FEBRUARY 01, 2012 , and the adjustable interest rate I will pay may change on that day every 12th month thereafter. The date on which my initial fixed interest rate changes to an adjustable interest rate, and each date on which my adjustable interest rate could change, is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my adjustable interest rate will be based on an Index. The "Index" is the average of interbank offered rates for one-year U.S. dollar-denominated deposits in the London market ("LIBOR"), as published in *The Wall Street Journal*. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding TWO AND 50/100 percentage points (2,500 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one—eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 11.000 % or less than 2.500 %. Thereafter, my adjustable interest rate will never be increased or decreased on any single Change Date by more than two percentage points from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 11.000 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

The Note Holder will deliver or mail to me a notice of any changes in my initial fixed interest rate to an adjustable interest rate and of any changes in my adjustable interest rate before the effective date of any change. The notice will include the amount of my monthly payment, any information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

B. TRANSFER OF THE PROPERTY OR A BENEFICIAL INTEREST IN BORROWER

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument However, this option shall not be exercised by Lender if

such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

2. When Borrower's initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section A above, Uniform Covenant 18 of the Security Instrument described in Section B1 above shall then cease to be in effect, and the provisions of Uniform Covenant 18 of the Security Instrument shall be amended to read

Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender also may require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless

BORROWER'S PROMISE TO PAY

In return for a loan that I have received, I promise to pay U.S. \$ 320,000.00 (this amount is called "Principal"), plus interest, to the order of Lender. Lender is WASHINGTON MUTUAL BANK, FA

I will make all payments under this Note in the form of cash, check or money order.

I understand that Lender may transfer this Note. Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note is called the "Note Holder."

2. INTEREST

Interest will be charged on unpaid principal until the full amount of Principal has been paid. I will pay interest at a yearly rate of 6.000 %. The interest rate I will pay may change in accordance with Section 4 of this Note.

The interest rate required by this Section 2 and Section 4 of this Note is the rate I will pay both before and after any default described in Section 7(B) of this Note.

3. PAYMENTS

(A) Time and Place of Payments

I will make a payment on the first day of every month, beginning on MARCH 01, 2007

Before the First I'rincipal and Interest Payment Due Date as described in Section 4 of this Note, my payment will consist only of the interest due on the unpaid principal balance of this Note. Thereafter, I will pay principal and interest by making a payment every month as provided below.

I will make my monthly payments of principal and interest beginning on the First Principal and Interest Payment Due Dat: as described in Section 4 of this Note. I will make these payments every month until I have paid all of the principal and interest and any other charges described below that I may owe under this Note. Each monthly payment will be applied as of its scheduled due date, and if the payment includes both principal and interest, it will be applied to interest before Principal. If, on FEBRUARY 01, 2037, I still owe amounts under this Note, I will pay those amounts in full on that date, which is called the "Maturity Date."

I will make my monthly payments at P.O.BOX 78148 PHOENIX, AZ 85062-8148

or at a different place if required by the Note Holder.

(B) Amount of My Initial Monthly Payments

My monthly payment will be in the amount of U.S.\$ 1,600.00 before the Pirst Principal and Interest Payment Due Date, and thereafter will be in an amount sufficient to repay the principal and interest at the rate determined as described in Section 4 of this Note in substantially equal installments by the Maturity Date. The Note Holder will notify me prior to the date of change in monthly payment.

Initials:

Changes in my monthly payment will reflect changes in the unpaid principal of my loan and in the interest rate that I must pay. The Note Holder will determine my new interest rate and the changed amount of my monthly payment in accordance with Section 4 or 5 of this Note.

4. ADJUSTABLE INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The initial fixed interest rate I will pay will change to an adjustable interest rate on the first day of FEBRUARY 01, 2012, and the adjustable interest rate I will pay may change on that day every 12th month thereafter. The date on which my initial fixed interest rate changes to an adjustable interest rate, and each date on which my adjustable interest rate could change, is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my adjustable interest rate will be based on an Index. The "Index" is the average of interbank offered rates for one-year U.S. dollar-denominated deposits in the London market ("LIBOR"), as published in *The Wall Street Journal*. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable

information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each ('hange Date, the Note Holder will calculate my new interest rate by adding Two AND 50/100 percentage points (2.500 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 11,000 % or less than 2.500 %. Thereafter, my adjustable interest rate will never be increased or decreased on any single Change Date by more than two percentage points from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 11,000 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

Before the effective date of any change in my interest rate and/or monthly payment, the Note Holder will deliver or mail to me a notice of such change. The notice will include information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

(G) Date of First Principal and Interest Payment

The date of my first payment consisting of both principal and interest on this Note (the "First Principal and Interest Payment I) ue Date") shall be the first monthly payment date after the first Change Date.

5. BORROWER'S RIGHT TO PREPAY

I have the right to make payments of principal at any time before they are due. A payment of principal only is known as a "Prepayment." When I make a Prepayment, I will tell the Note Holder in writing that I am doing so. I may not designate a payment as a Prepayment if I have not made all the monthly payments due under the Note.

I may make a full Prepayment or partial Prepayments without paying a Prepayment charge. The Note Holder will use my Prepayments to reduce the amount of Principal that I owe under this Note. However, the Note Holder may apply my Prepayment to the accrued and unpaid interest on the Prepayment amount, before applying my Prepayment to reduce the principal amount of the Note. If I make a partial Prepayment, there will be no changes in the due date of my monthly payment unless the Note Holder agrees in writing to those changes. If the partial Prepayment is made during the period when my monthly payments consist only of interest, the amount of the monthly payment will decrease for the remainder of the term when my payments consist only of interest. If the partial Prepayment is made during the period when my payments consist of principal and interest, my partial Prepayment may reduce the amount of my monthly payments after the first Change Date following my partial Prepayment. However, any reduction due to my partial Prepayment may be offset by an interest rate increase.

Initials:

W170NMU (0407)

If a law, which applies to this loan and which sets maximum loan charges, is finally interpreted so that the interest or other loan charges collected or to be collected in connection with this loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from me that exceeded permitted limits will be refunded to me. The Note Holder may choose to make this refund by reducing the Principal I owe under this Note or by making a direct payment to me. If a refund reduces Principal, the reduction will be treated as a partial Prepayment.

7. BORROWER'S FAILURE TO PAY AS REQUIRED

(A) Late Charges for Overdue Payments

If the Note Holder has not received the full amount of any monthly payment by the end of FIFTEEN calendar days after the date it is due, I will pay a late charge to the Note Holder. The amount of the charge will be 5.000 % of my overdue payment of interest, during the period when my payment is interest only, and of principal and interest thereafter. I will pay this late charge promptly but only once on each late payment.

(B) Default

If I do not pay the full amount of each monthly payment on the date it is due, I will be in default.

(C) Notice of Default

If I am in default, the Note Holder may send me a written notice telling me that if I do not pay the overdue amount by a certain date, the Note Holder may require me to pay immediately the full amount of Principal that has not been paid and all the interest that I owe on that amount. That date must be at least 30 days after the date on which the notice is mailed to me or delivered by other means.

(D) No Waiver By Note Holder

Even if, at a time when I am in default, the Note Holder does not require me to pay immediately in full as described above, the Note Holder will still have the right to do so if I am in default at a later time.

(E) Payment of Note Holder's Costs and Expenses

If the Note Holder has required me to pay immediately in full as described above, the Note Holder will have the right to be paid back by me for all of its costs and expenses in enforcing this Note to the extent not prohibited by applicable law. Those expenses include, for example, reasonable attorneys' fees.

8. GIVING OF NOTICES

Unless applicable law requires a different method, any notice that must be given to me under this Note will be given by delivering it or by mailing it by first class mail to me at the Property Address above or at a different address if I give the Note Holder a notice of my different address.

Unless the Note Holder requires a different method, any notice that must be given to the Note Holder under this Note will be given by mailing it by first class mail to the Note Holder at the address stated in Section 3(A) above or at a different address if I am given a notice of that different address.

OBLIGATIONS OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each person is fully and personally obligated to keep all of the promises made in this Note, including the promise to pay the full amount owed. Any person who is a guarantor, surety or endorser of this Note is also obligated to do these things. Any person who takes over these obligations, including the obligations of a guarantor, surety or endorser of this Note, is also obligated to keep all of the promises made in this Note. The Note Holder may enforce its rights under this Note against each person individually or against all of us together. This means that any one of us may be required to pay all of the amounts owed under this Note.

10. WAIVERS

I and any other person who has obligations under this Note waive the rights of Presentment and Notice of Dishonor. "Presentment" means the right to require the Note Holder to demand payment of amounts due. "Notice of Dishonor" means the right to require the Note Holder to give notice to other persons that amounts due have not been paid.

11. UNIFORM SECURED NOTE

This Note is a uniform instrument with limited variations in some jurisdictions. In addition to the protections given to the Note Holder under this Note, a Mortgage, Deed of Trust, or Security Deed (the "Security Instrument"), dated the same date as this Note, protects the Note Holder from possible losses that might result if I do not keep the promises that I make in this Note. That Security Instrument describes how and under what conditions I may be required to make immediate payment in full of all amounts I owe under this Note. Some of those conditions read as follows:

(A) Until my initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section 4 above, Uniform Covenant 18 of the Security Instrument shall read as follows:

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

(B) When my initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section 4 above, Uniform Covenant 18 of the Security Instrument described in Section 11(A) above shall then cease to be in effect, and Uniform Covenant 18 of the Security Instrument shall instead read as follows:

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law. Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender also may require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless Lender releases Borrower in writing.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

Uniform Residential Appraisal Report

File # 60871

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the nelghborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements.The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Freddie Mac Form 70 March 2005

Uniform Residential Appraisal Report

File # 60871

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

"Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the titte to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Our Business

In 1970, Congress created Freddie Mac with a few important goals in mind:

- · Make sure that financial institutions have mortgage money to lend
- · Make it easier for consumers to afford a decent house or apartment
- Stabilize residential mortgage markets in times of financial crisis

To fulfill this mission, Freddie Mac conducts business in the U.S. secondary mortgage market – meaning we do not originate loans – and works with a national network of mortgage lending customers. We have three business lines: a Single Family Credit Guarantee business for home loans; a Multifamily business for apartment financing; and an investment portfolio.

- Single-Family Credit Guarantee Business
- Multifamily Business
- Investment Business

Learn more about the benefits of our mortgage funding.

Single-Family Credit Guarantee Business

In our Single-Family business, we use mortgage securitization to fund millions of home loans every year. Securitization is a process by which we purchase home loans that lenders originate, put these loans into mortgage securities that are sold in global capital markets, and recycle the proceeds back to lenders. This recycling is designed to ensure that lenders have mortgage money to lend.

In the first nine months of 2010, Freddie Mac purchased or guaranteed \$261 billion in single-family home loans – funding one out of every four mortgages originated in the market. At the end of the third quarter 2010, our total outstanding obligations of mortgage-backed securities stood at \$1.8 trillion.

What makes the securitization process work? Families paying their mortgages every month. Because once a family moves into their home, their monthly payments of mortgage principal and interest are transferred ultimately to securities investors. When a family stops making payments – often due to loss of income – Freddie Mac steps in and makes those payments to securities investors. Managing this risk, known as credit risk, is how we generate revenue. Each time we fund a loan, we collect a credit guarantee fee from the lender selling us the loan. This fee is intended to protect us in case of loan default.

Other features of this business line:

- We guarantee mortgages exclusively in the conventional conforming market, where we purchase loans only up to a certain dollar amount (for 2011, \$417,000 for most of the nation and \$729,750 in certain high-cost areas)
- The vast majority of the loans we fund are long term, fixed rate mortgages
- We generally require third-party mortgage insurance on loans with low downpayments
- We have loan servicing operations that work with lenders to avoid foreclosure, where possible, for families in financial difficulty

Multifamily Business

Since not everyone owns their own home, Freddie Mac supports renters, too. Through our Multifamily business, we work with a network of lenders to finance apartment buildings around the country. Like single-family loans, these lenders originate and close loans that Freddie Mac later purchases; lenders then use the proceeds to originate additional loans.

Unlike single-family loans, which are relatively small in dollar amount and standardized in their composition and underwriting, multifamily loans typically are several million dollars in size, have underwriting characteristics that vary from property to property, and require custom examination such

as on-site property inspections and verification of income cash flows (i.e., rents). One other difference: while single-family borrowers are individual consumers, multifamily borrowers are property developers and/or managers.

In this business line, Freddie Mac finances most of its loan acquisitions through mortgage securitization. We also finance a portion through our investment portfolio.

During 2010, Freddie Mac funded \$15 billion in multifamily loans - financing more than 1,000 properties amounting to 241,000 apartment units.

Investment Business

The investment portfolio invests in mortgage-related securities that are guaranteed by Freddie Mac and other financial institutions. The portfolio also invests in individual loans that are guaranteed by Freddie Mac but not immediately securitized. As a bidder in the market, the investment portfolio helps to make mortgage-related securities more liquid and mortgage funding more available.

We fund acquisition of mortgage securities by issuing corporate debt securities. From this activity, we produce net income; that is, the difference between the interest payments we collect on the securities we buy and the yields we pay investors for buying our debt. In the first quarter of 2011, the investment portfolio acquired a net of \$1.8 billion in mortgage assets, and had an ending balance of \$692 billion. Roughly one-third of this balance includes Freddie Mac mortgage-backed securities, known as Participation Certificates, guaranteed by the Single-Family and Multifamily businesses. During 2011, the investment portfolio can be no larger than \$729 billion, per our regulator.

Our Business

In 1970, Congress created Freddie Mac with a few important goals in mind:

- Make sure that financial institutions have mortgage money to lend
- Make it easier for consumers to afford a decent house or apartment
- · Stabilize residential mortgage markets in times of financial crisis

To fulfill this mission, Freddie Mac conducts business in the U.S. secondary mortgage market – meaning we do not originate loans – and works with a national network of mortgage lending customers. We have three business lines: a Single Family Credit Guarantee business for home loans; a Multifamily business for apartment financing; and an investment portfolio.

- Single-Family Credit Guarantee Business
- Multifamily Business
- Investment Business

Learn more about the benefits of our mortgage funding.

Single-Family Credit Guarantee Business

In our Single-Family business, we use mortgage securitization to fund millions of home loans every year. Securitization is a process by which we purchase home loans that lenders originate, put these loans into mortgage securities that are sold in global capital markets, and recycle the proceeds back to lenders. This recycling is designed to ensure that lenders have mortgage money to lend.

In the first nine months of 2010, Freddie Mac purchased or guaranteed \$261 billion in single-family home loans – funding one out of every four mortgages originated in the market. At the end of the third quarter 2010, our total outstanding obligations of mortgage-backed securities stood at \$1.8 trillion.

What makes the securitization process work? Families paying their mortgages every month. Because once a family moves into their home, their monthly payments of mortgage principal and interest are transferred ultimately to securities investors. When a family stops making payments – often due to loss of income – Freddie Mac steps in and makes those payments to securities investors. Managing this risk, known as credit risk, is how we generate revenue. Each time we fund a loan, we collect a credit guarantee fee from the lender selling us the loan. This fee is intended to protect us in case of loan default.

Other features of this business line:

- We guarantee mortgages exclusively in the conventional conforming market, where we purchase loans only up to a certain dollar amount (for 2011, \$417,000 for most of the nation and \$729,750 in certain high-cost areas)
- · The vast majority of the loans we fund are long term, fixed rate mortgages
- · We generally require third-party mortgage insurance on loans with low downpayments
- We have loan servicing operations that work with lenders to avoid foreclosure, where possible, for families in financial difficulty

Multifamily Business

Since not everyone owns their own home, Freddie Mac supports renters, too. Through our Multifamily business, we work with a network of lenders to finance apartment buildings around the country. Like single-family loans, these lenders originate and close loans that Freddie Mac later purchases; lenders then use the proceeds to originate additional loans.

Unlike single-family loans, which are relatively small in dollar amount and standardized in their composition and underwriting, multifamily loans typically are several million dollars in size, have underwriting characteristics that vary from property to property, and require custom examination such

as on-site property inspections and verification of income cash flows (i.e., rents). One other difference: while single-family borrowers are individual consumers, multifamily borrowers are property developers and/or managers.

In this business line, Freddie Mac finances most of its loan acquisitions through mortgage securitization. We also finance a portion through our investment portfolio.

During 2010, Freddie Mac funded \$15 billion in multifamily loans - financing more than 1,000 properties amounting to 241,000 apartment units.

Investment Business

The investment portfolio invests in mortgage-related securities that are guaranteed by Freddie Mac and other financial institutions. The portfolio also invests in individual loans that are guaranteed by Freddie Mac but not immediately securitized. As a bidder in the market, the investment portfolio helps to make mortgage-related securities more liquid and mortgage funding more available.

We fund acquisition of mortgage securities by issuing corporate debt securities. From this activity, we produce net income; that is, the difference between the interest payments we collect on the securities we buy and the yields we pay investors for buying our debt. In the first quarter of 2011, the investment portfolio acquired a net of \$1.8 billion in mortgage assets, and had an ending balance of \$692 billion. Roughly one-third of this balance includes Freddie Mac mortgage-backed securities, known as Participation Certificates, guaranteed by the Single-Family and Multifamily businesses. During 2011, the investment portfolio can be no larger than \$729 billion, per our regulator.

Freddie Mac How to Get Help with Your Mortgage

Yes. Our records show that Freddie Mac is the owner of your mortgage.

What to Do Next

1. For help with your mortgage, contact your lender and let them know you would like to pursue assistance through the federal Making Home Affordable program.

(Your lender is the company to which you make your mortgage payments, and may also be referred to as a mortgage servicer.) Your lender can help you determine if you are eligible for the Making Home Affordable Program.

- a. Through the Making Home Affordable program, there are several options available to you:
 - A **Home Affordable Modification** to help you obtain more affordable mortage payments if you're behind in making your mortgage payments or believe you may be soon.
 - A Home Affordable Refinance to better position you for long-term homeownership success if you have been making timely mortgage payments but have been unable to refinance due to declining property values.
 - A short sale or "deed-in-lieu of foreclosure" to transition to more affordable housing if it is not realistic for you to keep your home.

Freddie Mac is working with our mortgage servicers (your lenders) to offer these solutions to eligible borrowers with Freddie Mac-owned mortgages. Because Freddie Mac does not work directly with consumers, you will need to work with your lender to determine your best foreclosure prevention option.

b. If you are not eligible for the Making Home Affordable program, don't give up! Ask your lender about other options to make your payments more affordable

RE: Potential Unlawful Foreclosure Practices in Washington

Dear Foreclosure Trustee:

I am writing to you regarding serious problems associated with foreclosures in the state of Washington that we have been observing. As a trustee responsible for conducting non-judicial foreclosures, you have a statutory duty to perform all foreclosures in good faith and you owe that duty to both the homeowner and the lender. Your duty includes assuring that every procedural step, every legal notice, and all mandated mediation opportunities are provided to homeowners facing foreclosure in fullest conformance with the law.

Our office has been investigating lenders, mortgage servicers and local trustees. We have discovered that problems related to foreclosure processing are not limited to the national banks and mortgage servicers. In Washington, we have found evidence that foreclosure trustees appear to be ignoring laws specific to our state and may be regularly using some of the same questionable practices used by national banks, such as:

- Employees of foreclosure trustees are signing documents posing as the corporate officer of multiple banks and mortgage servicers. This may misstate the signer's role in the process and be a conflict of interest contrary to the trustee's duties to the homeowner.
- The signatures of some trustees vary widely from document to document, which suggests that trustees are signing other person's signatures. This problem is compounded by the fact that the signatures are notarized with a statement that the signer is the actual person standing before the notary.
- Trustees may be foreclosing on homes when there is no clear chain of ownership for the loan or the security interest. Trustees must be sure that the lender has the authority to foreclose and that the documents which create the chain of ownership are accurate. One of the problems emerging nationally is that lenders are "reverse-

engineering" the chain of title, including back-dating documents to make it appear as though the loan was passed from company to company on certain dates when no such assignment actually occurred.

- Since July 26, 2009, Washington trustees have been required to identify the actual owner of the loan and the company that is acting as servicer, with their addresses and a phone number for the servicer. Many default notices have gone out without this required information, which can make it harder for homeowners to contact and deal with their mortgage owners.
- Lenders with mortgages made between 2003 and 2007 must advise the borrower that he or she has the right to request mediation and, if requested, the loan owner will schedule the meeting to occur within fourteen days of the request. It is our understanding that lenders are regularly not telling homeowners about this right, which exists to help homeowners explore alternatives to foreclosure.

Your role as foreclosure trustee is to ensure that each foreclosure you conduct is completed in good faith and in full compliance with the law. Because Washington State law allows foreclosure without court oversight, you are the party most responsible for ensuring that foreclosures are done properly. Consequently, I ask you to suspend all foreclosures in which you have not yet confirmed that all foreclosure-related documents were lawfully signed, that the chain of ownership is clear and has been revealed to you in full, and that state consumer protection requirements have been followed.

Our Consumer Protection Division has already begun investigations regarding several trustees and I would ask for your cooperation when you are contacted. I have also directed our legal team to survey the foreclosure trustees that are not under investigation to determine whether and how they are reforming their practices to comply with the law.

Sincerely,

ROB MCKENNA Attorney General

Attorney General steps in to ensure homeowners can contact foreclosure trustees

SEATTLE – Six months into its investigation into unlawful business practices by foreclosure trustees, the Washington Attorney General's Office announced that it has uncovered an additional widespread problem that jeopardizes homeowners' chances of stopping a foreclosure.

"Foreclosures run on strict timelines and homeowners need a human who they can talk with face to face when there's a problem," Attorney General Rob McKenna said. "They need an office where they can make last-minute payments or show documents that may prove reasons for stopping forced sales."

"Washington law requires that foreclosure trustees maintain actual offices in our state and local phone numbers for this reason," he continued. "But our investigation shows that some of the largest trustees are not in compliance and borrowers who have a legitimate reason to stop a foreclosure are having trouble reaching trustees."

McKenna said his office's Consumer Protection Division is contacting a handful of trustees believed to be violating the law. The office isn't naming those trustees at this time, but said they are processing large volumes of foreclosures in Washington. In addition, the office sent a letter today to all trustees operating in the state that notifies them of their obligations.

The state's Deed of Trust statute was amended in 2008 to ensure that trustees are knowledgeable about Washington law and that they are available for last-minute payoffs when homeowners are trying to catch up on their mortgages or have a legitimate reason to stop a sale. Having an agent in Washington State isn't sufficient; the law also requires that the trustee itself maintain an office with a phone where homeowners can go to resolve their foreclosure issues.

The investigation is being conducted solely by the Washington Attorney General's Office, which is also a participant in the <u>multistate investigation</u> by attorneys general into abuses in the mortgage servicing industry.

McKenna sent a letter to 52 trustees in October 2010, announcing its concerns about inaccurate documents, conflicts-of-interest, faulty chains of title and failure to provide disclosures and conduct mediations. The letter called on trustees to suspend any questionable foreclosures.

Since then, the office has requested and received documents from several trustees. Attorneys are reviewing the information they have received so far and are waiting for documents from other companies.

McKenna said homeowners who believe they have a legitimate reason to stop a

foreclosure should contact their trustee immediately, preferably with the advice of a housing counselor or an attorney. Foreclosure trustees have the power to postpone a foreclosure sale whenever they think it is advantageous. Some possible reasons for stopping a foreclosure include: a mortgage servicer failed to credit payments, the homeowner never received notice of the foreclosure, one division of the mortgage servicer promised a loan modification while the other started the foreclosure process, the homeowner has a genuine contract to sell his home but the servicer will not respond to the sales offer.

A homeowner who is unable to find a local address or phone number for their trustee should file a complaint with the Attorney General's Office online at http://atg.wa.gov/FileAComplaint.aspx. However, this will not stop a foreclosure sale. Homeowners should also contact a housing counselor or an attorney.

Washington is a "non-judicial foreclosure" state, which means that a lender can proceed directly to selling a home at public auction without first filing a lawsuit. This process was created by the state Legislature. Although lenders may foreclose in court in Washington, they almost always choose non-judicial foreclosures.

If a trustee is unwilling to stop a foreclosure, then the homeowner must file a lawsuit under the Deed of Trust Act and obtain a court order before the sale. Bankruptcy may stop or delay a foreclosure but it may also put the homeowner in a worse position. Legal representation is essential to a successful case, McKenna said.

BORROWER RESOURCES:

- If you believe unlawful activity has occurred in regard to your mortgage, you should speak with an attorney. A homeowner may file a suit to challenge a foreclosure, but they must do so prior to the foreclosure sale.
- If you are unable to afford a lawyer, you should contact the Washington State Homeownership Information Hotline at 1-877-894-4663 (HOME) for referral to the Home Foreclosure Legal Aid Project. The hotline can also refer to you to a free, state-approved housing counselor.
- Te Attorney General's Office cannot stop a foreclosure or provide individuals with legal advice, as the office is barred by law from representing private citizens.
- Homeowners should read the <u>Washington Foreclosure Prevention</u>
 <u>Resources Guide</u>, provided by the Seattle-King County Asset Building
 Collaborative Foreclosure Prevention Team and recommended by the
 Attorney General's Office and the Washington State Department of
 Financial Institutions.

The Assuming Bank shall be deemed by the Receiver to have assumed agreements for which no notification is timely given. The Receiver agrees to assign, transfer, convey, and deliver to the Assuming Bank all right, title and interest of the Receiver, if any, in and to agreements the Assuming Bank assumes hereunder. In the event the Assuming Bank elects not to accept an assignment of any lease (or sublease) or negotiate a new lease for leased Bank Premises under Section 4.6 and does not otherwise occupy such premises, the provisions of this Section 4.8 shall not apply to service agreements related to such premises. See Schedule 3.1a.

ARTICLE IX CONTINUING COOPERATION

- 9.1 General Matters. The parties hereto agree that they will, in good faith and with their best efforts, cooperate with each other to carry out the transactions contemplated by this Agreement and to effect the purposes hereof.
- Bank each agree, at any time, and from time to time, upon the request of any party hereto, to execute and deliver such additional instruments and documents of conveyance as shall be reasonably necessary to vest in the appropriate party its full legal or equitable title in and to the property transferred pursuant to this Agreement or to be transferred in accordance herewith. The Assuming Bank shall prepare such instruments and documents of conveyance (in form and substance satisfactory to the Receiver) as shall be necessary to vest title to the Assets in the Assuming Bank. The Assuming Bank shall be responsible for recording such instruments and documents of conveyance at its own expense.

9.3 Claims and Suits.

- (a) The Receiver shall have the right, in its discretion, to (i) defend or settle any claim or suit against the Assuming Bank with respect to which the Receiver has indemnified the Assuming Bank in the same manner and to the same extent as provided in Article XII, and (ii) defend or settle any claim or suit against the Assuming Bank with respect to any Liability Assumed, which claim or suit may result in a loss to the Receiver arising out of or related to this Agreement, or which existed against the Failed Bank on or before Bank Closing. At any time, the Receiver or the Corporation may, in its 9.5 discretion, determine that all or any portion of any deposit balance assumed by the Assuming Bank pursuant to this Agreement does not constitute a "Deposit" (or otherwise, in its discretion, determine that it is the best interest of the Receiver or Corporation to withhold all or any portion of any deposit), and may direct the Assuming Bank to withhold payment of all or any portion of any such deposit balance. Upon such direction, the Assuming Bank agrees to hold such deposit and not to make any payment of such deposit balance to or on behalf of the depositor, or to itself, whether by way of transfer, set-off, or otherwise. The Assuming Bank agrees to maintain the "withheld payment" status of any such deposit balance until directed in writing by the Receiver or the Corporation as to its disposition. At the direction of the Receiver or the Corporation, the Assuming Bank shall return all or any portion of such deposit balance to the Receiver or the Corporation, as appropriate, and thereupon the Assuming Bank shall be discharged from any further liability to such depositor with respect to such returned deposit balance. If such deposit balance has been paid to the depositor prior to a demand for return by the Corporation or the Receiver, and payment of such deposit balance had not been previously withheld pursuant to this Section, the Assuming Bank shall not be obligated to return such deposit balance to the Receiver or the Corporation. The Assuming Bank shall be obligated to reimburse the Corporation or the Receiver, as the case may be, for the amount of any deposit balance or portion thereof paid by the Assuming Bank in contravention of any previous direction to withhold payment of such deposit balance or return such deposit balance the payment of which was withheld pursuant to this Section.

- e) Representations Remain True. The Assuming Bank represents and warrants that it has executed and delivered to the Corporation a Purchaser Eligibility Certification and Confidentiality Agreement and that all information provided and representations made by or on behalf of the Assuming Bank in connection with this Agreement and the transactions contemplated hereby, including, but not limited to, the Purchaser Eligibility Certification and Confidentiality Agreement (which are affirmed and ratified hereby) are and remain true and correct in all material respects and do not fail to state any fact required to make the information contained therein not misleading.

- 12.4 <u>Indemnification of Receiver and Corporation</u>. From and after Bank Closing, the Assuming Bank agrees to indemnify and hold harmless the Corporation and the Receiver and their respective directors, officers, employees and agents from and against any and all costs, losses, liabilities, expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with any of the following:
- (a) claims based on any and all liabilities or obligations of the Failed Bank assumed by the Assuming Bank pursuant to this Agreement or subsequent to the execution hereof by the Assuming Bank or any Subsidiary or Affiliate of the Assuming Bank, whether or not any such liabilities subsequently are sold and/or transferred, other than any claim based upon any action or inaction of any Indemnitee as provided in paragraph (7) or (8) of Section 12.1(a); and
- (b) claims based on any act or omission of any Indemnitee (including but not limited to claims of any Person claiming any right or title by or through the Assuming Bank with respect to Assets transferred to the Receiver pursuant to Section 3.4 or 3.6), other than any action or inaction of any Indemnitee as provided in paragraph (7) or (8) of Section 12.1(a).
- 12.5 Obligations Supplemental. The obligations of the Receiver, and the Corporation as guarantor in accordance with Section 12.7, to provide indemnification under this Article XII are to supplement any amount payable by any Primary Indemnitor to the Person indemnified under this Article XII. Consistent with that intent, the Receiver agrees only to make payments pursuant to such indemnification to the extent not payable by a Primary Indemnitor. If the aggregate amount of payments by the Receiver, or the Corporation as guarantor in accordance with Section 12.7, and all Primary Indemnitors with respect to any item of indemnification under this Article XII exceeds the amount payable with respect to such item, such Person being indemnified shall notify the Receiver thereof and, upon the request of the Receiver, shall promptly pay to the Receiver, or the Corporation as appropriate, the amount of the Receiver's (or Corporation's) payments to the extent of such excess.
- 12.6 <u>Criminal Claims</u>. Notwithstanding any provision of this Article XII to the contrary, in the event that any Person being indemnified under this Article XII shall become involved in any criminal action, suit or proceeding, whether judicial, administrative or investigative, the Receiver shall have no obligation hereunder to indemnify such Person for liability with respect to any criminal act or to the extent any costs or expenses are attributable to the defense against the allegation of any criminal act, unless (i) the Person is successful on the merits or otherwise in the defense against any such action, suit or proceeding, or (ii) such action, suit or proceeding is terminated without the imposition of liability on such Person.
- 12.7 <u>Limited Guaranty of the Corporation</u>. The Corporation hereby guarantees performance of the Receiver's obligation to indemnify the Assuming Bank as set forth in this Article XII. It is a condition to the Corporation's obligation hereunder that the Assuming Bank shall comply in all respects with the applicable provisions of this Article XII. The Corporation shall be liable hereunder only for such amounts, if any, as the Receiver is obligated to pay under the terms of this Article XII but shall fail to pay. Except as otherwise provided above in this Section 12.7, nothing in this Article XII is intended or shall be construed to create any liability or obligation on the part of the Corporation, the United States of America or any department or

agency thereof under or with respect to this Article XII, or any provision hereof, it being the intention of the parties hereto that the obligations undertaken by the Receiver under this Article XII are the sole and exclusive responsibility of the Receiver and no other Person or entity.

12.8 <u>Subrogation</u>. Upon payment by the Receiver, or the Corporation as guarantor in accordance with Section 12.7, to any Indemnitee for any claims indemnified by the Receiver under this Article XII, the Receiver, or the Corporation as appropriate, shall become subrogated to all rights of the Indemnitee against any other Person to the extent of such payment.

BUSINESS

Overview

With a history dating back to 1889, Washington Mutual, Inc. (together with its subsidiaries, "Washington Mutual," or the "Company") is a retailer of financial services to consumers and small businesses. Based on our consolidated assets at December 31, 2004 we were the largest thrift holding company in the United States and the seventh largest among all U.S.-based bank and thrift holding companies.

Our earnings are primarily driven by real estate secured lending and deposit taking activities which generate net interest income and by activities that generate noninterest income, including the sale and servicing of loans and providing fee-based services to our customers. Real estate secured loans and mortgage-backed securities generate more than 90% of interest income and this concentration is likely to continue as a result of our decision to exit certain non-core businesses, such as lending to mid- and large-sized companies.

We strive to be the nation's leading retailer of financial services for consumers and small businesses. We plan to achieve this by building strong, profitable relationships with a broad spectrum of consumers and businesses. Expanding our retail banking franchise and achieving efficiencies in our operations will be critical to future success.

Following the acquisition of the three largest California-based thrift institutions in the latter part of the 1990s, we continued to expand nationally by acquiring companies with strong retail banking franchises in Texas and the greater New York metropolitan area. During this period, we developed and launched our award-winning and innovative retail banking stores that serve customers in an open, free-flowing retail environment. With the goal of combining our strengths as a deposit taker and portfolio lender with those of a mortgage banker, we also expanded our presence in the home loan origination and servicing businesses through acquisition. These mortgage banking acquisitions also served to further broaden our national footprint.

Having created a viable branch presence in many of the largest metropolitan areas over the past decade, our current retail banking store expansion strategy is focused primarily on middle market consumers in those states where we have both a home loan and retail banking presence. As compared to our branching strategy over the last decade, this focus on our existing markets carries lower execution risk because it enables us to leverage both existing infrastructure and brand awareness and is concentrated in markets with characteristics of both above average household growth and below average branch density. For more detail on the products and services offered by our Retail Banking and Financial Services Group, refer to Management's Discussion and Analysis – "Operating Segments."

In the mortgage banking business, we are building scalable and repeatable processes that will enable us to enhance customer service and offer products at prices that are both competitive and profitable. The ending of the refinance boom in the latter part of 2003 and the ensuing decline in home loan volume resulted in an unacceptably high mortgage banking fixed cost structure. This was largely the result of not having integrated the loan fulfillment operations and the technologies of acquired companies. Our goal is to make this business more competitive by improving productivity and enhancing customer service. For more detail on the products and services offered by our Mortgage Banking Group, refer to Management's Discussion and Analysis – "Operating Segments."

Multi-family lending complements the Company's expertise in residential real estate secured lending. As a result of productivity improvements completed in this business in 2004, we are well-positioned to execute on our strategy of increasing market share in our top 15 targeted metropolitan markets. These markets have stable demand, a large disparity between the cost of renting and the cost of home ownership, and households that typically rent for an extended period of time. Our target markets also have supply

1

constraints such as geographic barriers, rent control and zoning restrictions. For more detail on the products and services offered by our Commercial Group, of which multi-family lending is the most significant part, refer to Management's Discussion and Analysis – "Operating Segments."

Available Information

We make our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to such reports filed pursuant to Section 13(a) or 15(d) of the Exchange Act, available free of charge on or through our website located at www.wamu.com/ir as soon as reasonably practicable after filing with the United States Securities and Exchange Commission.

The Company's Code of Conduct, which applies to all officers, directors and employees of the Company, and the Code of Ethics for Senior Financial Officers, which applies to the Company's Chief Executive Officer, Chief Financial Officer, Controller, and each business segment or business line chief financial officer and controller, as well as any waiver of our Code of Conduct or Code of Ethics for Senior Financial Officers, are disclosed on our website located at www.wamu.com/ir.

Employees

At December 31, 2004, we had 52,579 employees, compared with 63,720 at December 31, 2003 and 55,200 at December 31, 2002, which included zero, 2,346 and 2,330 employees related to the Company's discontinued operations. During 2004, our number of employees decreased primarily due to the Company's cost containment initiative directed at reducing the fixed cost structure of the mortgage banking business through reduced employee headcount. During 2003, our number of employees increased substantially to accommodate the high refinancing activity in the earlier part of the year and the opening of new retail banking stores. We believe that we have been successful in attracting quality employees and that our employee relations are good.

Factors That May Affect Future Results

Our Form 10-K and other documents that we file with the Securities and Exchange Commission have forward-looking statements. In addition, our senior management may make forward-looking statements orally to analysts, investors, the media and others. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," or words of similar meaning, or future or conditional verbs such as "will," "would," "should," "could" or "may."

Forward-looking statements provide our expectations or predictions of future conditions, events or results. They are not guarantees of future performance. By their nature, forward-looking statements are subject to risks and uncertainties. These statements speak only as of the date they are made. We do not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements were made. There are a number of factors, many of which are beyond our control, which could cause actual conditions, events or results to differ significantly from those described in the forward-looking statements.

Some of these factors are described below.

Volatile interest rates impact our mortgage banking business and could adversely affect our earnings.

Changes in interest rates affect the mortgage banking business in complex and significant ways. Changes in interest rates can affect loan origination fees, gain from mortgage loans and loan servicing fees, which are the principal components of home loan mortgage banking income. When mortgage rates decline, we would generally expect loan volumes to increase as borrowers refinance, which leads to accelerated payoffs of mortgage loans in our servicing portfolio, which reduces the fair value of our mortgage servicing rights ("MSR"), and to increased loan origination fees and gain from mortgage loans, as our mix of originated mortgage loans generally shifts to saleable fixed-rate products. When mortgage rates rise, we

2

would generally expect loan volumes to decrease, which generally leads to reduced payoffs in our servicing portfolio, which increases the fair value of our MSR, and to reduced loan origination fees and gain from mortgage loans, as our mix or originated mortgage loans generally shifts to adjustable-rate products we hold in portfolio.

To mitigate changes in fair value of our MSR, we purchase and sell financial instruments, such as mortgage-backed securities and fixed-rate investment securities; enter into interest rate contracts and forward commitments to purchase or sell mortgage-backed securities, which tend to increase in value when mortgage rates decline and decrease in value when mortgage rates rise; and we adjust the mix and amount of such financial instruments or contracts to take into account the effects of different interest rate environments. Our management must exercise judgment in selecting the amount, type and mix of financial instruments and contracts to mitigate changes in fair value of our MSR. We cannot assure that the amount, type and mix of financial instruments and contracts we select will offset significant decreases in the value of the MSR and the Company's earnings could be adversely affected. Moreover, some of the risk management instruments we use may experience periods of illiquidity in the secondary markets, in which case our ability to effectively mitigate changes in the fair value of the MSR could be adversely affected.

Historically, the Company has held adjustable-rate mortgage ("ARM") loans in its portfolio; however, the industry-wide increase in the origination volume of adjustable-rate mortgages has facilitated the development of a secondary market for these products and has allowed us to sell a significant portion of our signature adjustable-rate mortgage, the Option ARM, into this market. The Company believes that secondary market prices offered for its Option ARM product may result in stronger gain from mortgage loans than its conforming fixed and hybrid products; therefore, a downturn in customer demand for this product or a prolonged period of secondary market illiquidity could have an adverse effect on the Company's earnings.

For further discussion of how interest rate risk, basis risk and prepayment risk are managed, refer to Management's Discussion and Analysis – "Market Risk Management."

Rising unemployment or a decrease in housing prices could adversely affect our credit performance.

The Company's credit performance has been strong, reflecting a generally favorable economic environment for real estate lending. The Company continually monitors changes in the economy, particularly unemployment rates and housing prices. If unemployment were to rise and either a slowdown in housing price appreciation or outright declines in housing prices were to occur, borrowers may be unable to repay their loans. As a result, the Company could experience higher credit losses in its mortgage loan portfolios, which could adversely affect our earnings.

A continuing emphasis on subprime lending could negatively impact our business.

The Company began accelerating purchases of subprime loans in 2003, increased its specialty mortgage finance portfolio significantly in 2004 and intends to continue to grow this portfolio in the future. The specialty mortgage finance portfolio has generally performed well as a result of a strong mortgage market, housing price appreciation and the Company's disciplined approach in re-underwriting these assets. However, if there were a downturn in the national economy or local economies where we do business, the credit performance of this portfolio could suffer, with a potential adverse effect on our earnings.

The potential for negative amortization in the Option ARM product could have an adverse effect on the Company's credit.

The Option ARM loan is a unique adjustable-rate mortgage that can provide the borrower with up to four payment options each month and an introductory rate of interest ("start rate") that is usually much lower than the loan's fully-indexed interest rate and will last from one month to five years, depending on the type of Option ARM selected by the borrower. The minimum monthly payment is a fully amortizing
